## NMR DISCUSSION GROUP

IPJ/JMS

10th November 1981

Dear Member,

The next meeting of the NMR Discussion Group will be our annual Christmas meeting which, this year, will be held on 17th December at the Scientific Societies' lecture theatre in Savile Row, London.

The meeting will commence at 10.30 a.m., coffee being available from 10.00 a.m. The morning session will be devoted to high-resolution solid state NMR and will include a review lecture by Professor R.K. Harris.

After lunch, the theme will be the use of pulse experiments in high resolution NMR. This will include a review lecture by Dr. G. Morris as well as some other presentations.

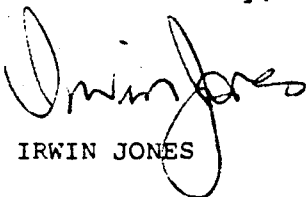

Contributions to both sessions are welcomed, and anyone interested should contact Dr. Peter Beynon using the enclosed form.

During the afternoon session a short period will be reserved for group business. This will include an election to fill the committee vacancy arising from the retirement of our chairman, Professor R.K. Harris. In order to maintain a balance of membership, it is felt that, if possible, the new member should come from the academic world. Nominations should be made using the enclosed form.

If you wish to attend this meeting, please return the enclosed form, together with the appropriate remittance, to Dr. Peter Beynon, before 10th December.

I look forward to seeing you at the Scientific Societies' lecture theatre.

Yours sincerely,

IRWIN JONES
